SYRACUSE UNIVERSITY

## Map Reduce Phase 2

1. Link to repository: [https://github.com/ColtonWilson/MapReduce\\_Project\\_Phase-2](https://github.com/ColtonWilson/MapReduce_Project_Phase-2)
2. "How-To" document and code reviews are in the repository.
3. I was responsible for designing and implementing the ReduceLibrary DLL and implementing the changes to the unit tests so that they utilized the methods inside the ReduceLibrary DLL and the MapLibrary DLL.

My partner, Colton Wilson, designed and implemented the MapLibrary DLL.

4. The DLL implementation went smoothly. The unit tests were able to call the DLL methods and use them to produce the same test results seen in phase 1.
